

Retarus Software & Consulting Solutions

Retarus Collaboration & Communication Suite

In kurzer Zeit zur optimalen Zusammenarbeit

Retarus Collaboration & Communication Suite ist eine Modulserie, die von der Installation und Lizenzierung, über Berechtigungs- und Compliance-Management bis zur Anwendungsfähigkeit und Lizenzoptimierung alles in einer kompletten und generell geschäftsfertigen Unternehmenslösung beinhaltet.

Die Retarus Collaboration & Communication Suite bildet die einmalige Chance, schnell, sicher und zu optimalen Kosten auf IBM Lösungen wie zum Beispiel IBM Information Management, IBM Domino & Connections, IBM Tivoli, IBM Rational, IBM Cognos & SPSS sowie IBM Watson IoT Plattformen zu migrieren sowie zur Wertsteigerung von bereits eingesetzten IBM Produkten im Unternehmen.

Optimieren Sie Ihre Infrastruktur für Zusammenarbeit und Kommunikation! Geben Sie Menschen die Möglichkeit Kontakte herzustellen, leichter zusammenzuarbeiten und Neuerungen einzubringen, um so Ihre Geschäftsergebnisse zu steigern.

Art & Inhalt

Die Zusammenstellung der Collaboration-Infrastruktur enthält IBM Software aus den unterschiedlichsten Bereichen. Zusätzlich bietet Retarus verschiedene, selbst entwickelte Anwendungen wie zum Beispiel den Retarus Domino Trailer, Retarus Faxolution for Notes, den Retarus Label Printer, den Retarus Gruppenkalender sowie das Retarus Vertragsmanagement.

Retarus Software Spezialisten und Software Service-Consultants bieten ihren Kunden nicht nur Beratung und Administration, sondern auch Speicherungs-, Backup- und Archivierungskonzepte, die Integration von IBM Spectrum Protect, IBM Security Identity und Access Manager, sowie verschiedene Information Management Produkte, wie z.B. den Content Manager und Data Management.

Als Prozessmanagement-Spezialist bietet Retarus zusätzlich spezielle Workflow- und Systemintegrations- Lösungen. Rational Solutions sind darauf ausgerichtet, innovative und nachhaltige Lösungen zu entwickeln, zu implementieren und zu betreuen, die die Erwartungen der Kunden weit übertreffen. Retarus bietet innerhalb seiner Collaboration and Communication Suite Lösungen zur Beschleunigung von Rational-basierenden Software- und Systemlieferungen, um High-Quality Web-, SOA-, Java-, J2EE- und Portal-Anwendungen schnell zu entwerfen, zu entwickeln, zu analysieren, zu testen, zu profilieren und einzusetzen. Abgerundet wird die Suite durch die Retarus Cloud Services.

Vorteile & Nutzen

- Als führender Informationslogistiker steuern wir die Kommunikation für Unternehmen weltweit. Mit intelligenter Infrastruktur, patentierten Technologien und exzellentem Service. Denn je schneller und sicherer Ihre Informationen fließen, desto besser funktioniert Ihr Business.
- Modulare Komplettlösung zur Optimierung der Zusammenarbeit
- Collaboration- und Communication-Lösungen aus einer Hand
- Unterstützung durch IBM zertifizierte Collaboration- und Communication-Spezialisten
